

## Figma to React App

Conver the Figma design to a working React application.

### File Upload

An ability to drag file or open a dialog to upload the file.

Only one file with PDF extn is allowed and the size of file must be less than 2 MB

The file must be uploaded to a local folder of the user system c:\temp\fetch\documents

### Add Fields

Add fields is drop down will contain a list of fields with a check box. The data for the list is initially loaded from the "addfields.json" file.

The "DisplayName" property of the field from the json is the name of the item in the drop-down list and based on the required value true/false the tick mark must be displayed and corresponding fields must be displayed in the panels explained below.

```
▼ Field:
  DisplayName: "Tax Id"
  FieldName: "ABN"
  Required: "false"
▼ 1:
  ▼ Field:
    DisplayName: "Vendor Name"
    FieldName: "VendorName"
    Required: "true"
▼ 2:
  ▼ Field:
    DisplayName: "Invoice Number"
    FieldName: "InvoiceNumber"
    Required: "true"
▼ 3:
  ▼ Field:
```

**Subtotal** × **Tax Amount** ×

**INVOICE**

**Billed To**  
Fetchie Inc.  
294 Morris Dr.  
Westerville, OH  
43081

**Date Issued** 26/3/2021 **Invoice Number** INV-10012 **Amount** \$1,600.00  
**Due Date** 25/4/2021

**Acme Corp**  
30 Pinek  
Waxh

DESCRIPTION	RATE	QTY	AMOUNT
Services	\$55.00	10	\$550.00
Cost of various services.	+Tax		
Consulting	\$75.00	15	\$1,125.00

**Add Fields** ▼

- Tax ID
- Vendor Name ✓
- Invoice Number ✓
- Invoice Date ✓
- Due Date ✓
- Purchase Order ✓
- Subtotal ✓
- Discount
- Postage
- Tax Amount ✓
- Total ✓
- Total (past Due Date)

The user can select multiple items from the drop-down list.

When the user clicks a field from the drop-down list, following are required

1. If the field was not already selected, the tick mark must be displayed and the field must be added in the following group of fields with an ability to remove the field.

**Selected Fields**

Vendor Name × Invoice Number × Invoice Date × Due Date × Purchase Order × Subtotal × Tax Amount ×

Total × Bank SSB × Bank Account ×

2. A text box with the field name as the label must be created dynamically. Use the “DisplayName” of the drop-down item as the Label Text and “Fieldname” as the id of the textbox. Based on the confident true/false value, the green tick or exclamation image button must be displayed.

Vendor Name	Acme Corporation	✓
Invoice Number	INV -10012	✓
Invoice Date	26/3/2021	✓
Due Date	25/4/2021	✓

When the user removes the field from field group, following are required

1. Remove the tick mark for that field from the Add fields
2. The corresponding field item in the “Add Fields” dropdown must be unchecked.
3. The corresponding text box with the label must be removed.

When the user unchecks the field from “Add Fields” drop down, following are required

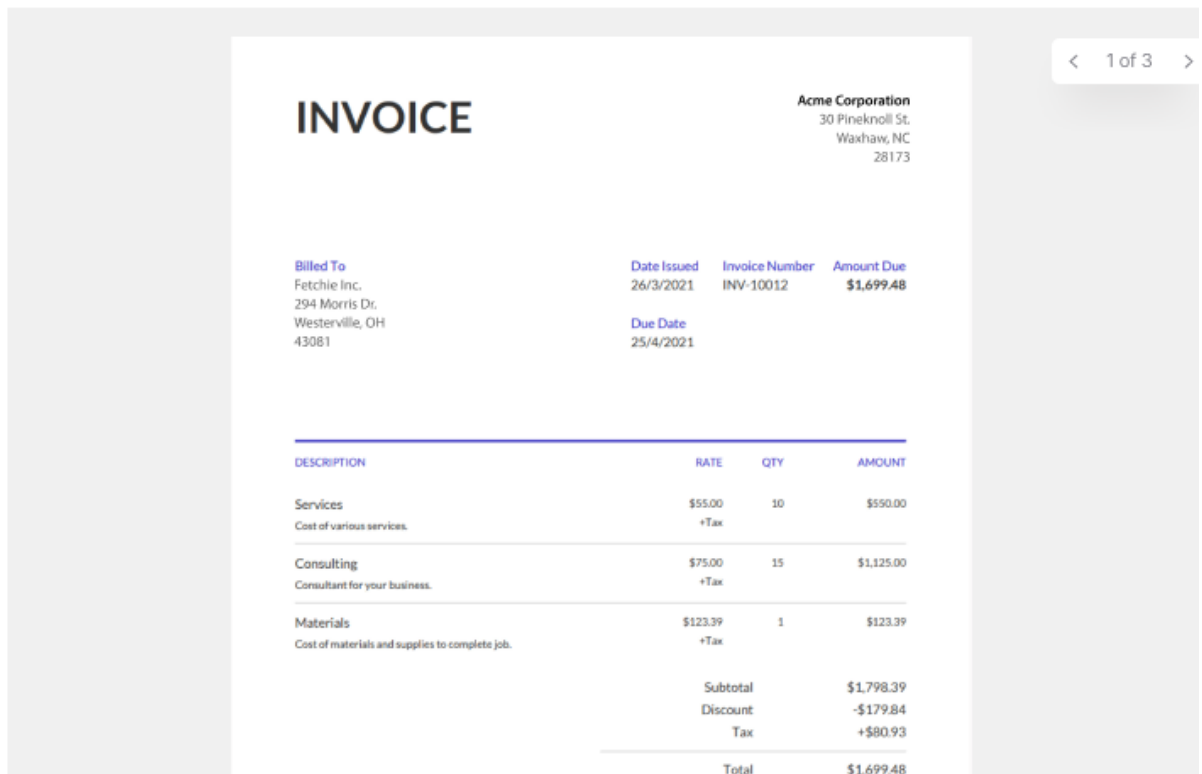

1. The corresponding field in the fetch fields group must be removed.
2. The corresponding text box with the label must be removed.

## Fetch Button

When “Fetch” button is clicked, following are required.

1. The PDF document uploaded on the c:\temp\fetch\documents in the “File Upload” section must be displayed in a PDF viewer with ability to navigate through pages using the pagination control, zoom in/out or fit to imageviewer.

2. The values of the text boxes must be populated from the “getfields.json” based on the “FieldName” (id of the text box) and “Value”(Textbox value)

Confident: "true"
